Technical Skills

- Languages: Dart, JavaScript, Java, C/C++, SQL, HTML5, CSS3
- Frameworks/Libraries: Flutter, Node.js, Express, MongoDB

PROFILE INFO

- I am a highly motivated and detail-oriented final-year **Information technology** student with a strong passion for **mobile application development**, particularly in **Flutter**.
- Over the last year, I have immersed myself in **Flutter development**, successfully building applications that showcase my proficiency in this cross-platform framework.
- My expertise extends beyond frontend development, as I have seamlessly integrated robust backends using technologies such as **Firebase**, **Node.js**, and **MongoDB**.
- I am currently seeking a challenging **internship** opportunity that can help me utilize my technical skills in **Flutter development** and provide me with a conducive environment to grow.
- My main objective is to contribute meaningfully to a dynamic team while gaining valuable industry experience.

PROJECTS

FLASH CHAT - FLUTTER APPLICATION

[GITHUB](#)

- Real-time messaging capabilities that support text and emojis, which facilitate seamless communication between users.
- A Secure authentication through **Firebase** with support for email/password and social media logins.
- A simple and intuitive user interface that allows users to navigate between conversations easily.

WHATSAPP UI - FLUTTER

[GITHUB](#) | [FRONTEND](#)

- I designed and developed a clone of the WhatsApp UI using Flutter.
- Created a scalable layout that adjusts to different screen sizes and resolutions, enabling users to access all features on any device.

TODOEY APP - FLUTTER TO-DO LIST

[GITHUB](#)

- Developed a to-do app using **Flutter**, a cross-platform mobile app development framework.
- Implemented functionality for users to add and delete tasks from the list, multiscreen functionality for easy navigation throughout the app.
- Leveraged **Provider State Management** for efficient state management throughout the app.
